Hydraulic Fluid		1	8.50	8.50
Envir Disp Fee		2	1.00	2.00

Recommended Service

A/C System Leaking Refrigerant

Your air conditioning system is leaking and should be repaired. A leaking air conditioning system is harmful to the atmosphere because it depletes the ozone that protects the earth. Also, this problem can allow moisture to enter the air conditioning system, which will damage very expensive components and raise the cost of repairs higher than they would be for simply repairing the leak.
